DUE DATES FOR SEMINARY STUDENTS:

JANUARY 1st for students beginning at SVS in January (Spring Semester) - **JULY 1st** for students entering SVS in August (Fall Semester)

STUDENT'S NAME: _____ Birth date: _____
Last First Middle M D Y

STUDENT ID #: |_|_|_|_|_|_|_|_| Assigned by Dean's office

Permanent address: _____ City: _____ State/Prov: _____

Country: _____ Telephone: _____ Email Address: _____

• When are you arriving at SVS? (circle one) Month: _____ YEAR: _____

Passport # _____ Nationality _____ Visa Type _____

Sevis # (For those with an I-20): _____

• Will you be registering for 3 or more classes your first semester at SVS? Yes No Not sure

• Program: _____

• Were you born in the U.S.? Yes No, I was born in _____

• Did you ever have Chickenpox? Yes - Month: _____ Year _____ No, but I was vaccinated. No and I was not vaccinated.

TUBERCULOSIS (TB) SCREENING QUESTIONNAIRE

Student, Please answer the following questions:

Circle One

1) Have you ever had a positive TB test?	Yes	No
2) Have you ever had close contact with persons known or suspected to have active TB disease?	Yes	No
3) Were you born in one of the countries listed below? If yes, please CIRCLE the country.	Yes	No
4) Have you had any frequent or prolonged stays (30 days or more) to one or more of the countries listed below? If yes, please CHECK ✓ the country/ies below.	Yes	No
5) Have you been a resident or employee of high-risk congregate settings (e.g., correctional facility, long-term care facility, homeless shelter)?	Yes	No
6) Have you ever been a volunteer or health-care worker who served clients who are at risk for active TB disease?	Yes	No
7) Have you ever been a member of any of the following groups that may have an increased incidence of latent TB infection or active TB disease: medically underserved, low-income, or abusing drugs and/or alcohol?	Yes	No

Afghanistan	Côte d'Ivoire	Iraq	Namibia	Solomon Islands
Algeria	Congo (Democratic Republic of the)	Kazakhstan	Nauru	Somalia
Angola	Democratic People's Republic of Korea	Kenya	Nepal	South Africa
Argentina	Democratic Republic of the Congo	Kiribati	Nicaragua	South Sudan
Armenia	Dominican Republic	Korea (Democratic People's Republic of)	Niger	Sri Lanka
Azerbaijan	Ecuador	Kuwait	Nigeria	Sudan
Bahrain	El Salvador	Kyrgyzstan	Niue	Suriname
Bangladesh	Equatorial Guinea	Lao People's Democratic Republic	Pakistan	Swaziland
Belarus	Eritrea	Latvia	Palau	Tajikistan
Belize	Estonia	Lesotho	Panama	Tanzania (United Republic of)
Benin	Ethiopia	Liberia	Papua New Guinea	Thailand
Bhutan	Fiji	Lithuania	Paraguay	Timor-Leste
Bolivia (Plurinational State of)	Gabon	Madagascar	Peru	Togo
Bosnia & Herzegovina	Gambia	Malawi	Philippines	Trinidad & Tobago
Botswana	Georgia	Malaysia	Poland	Tunisia
Brazil	Ghana	Maldives	Portugal	Turkey
Brunei Darussalam	Guam	Mali	Qatar	Turkmenistan
Bulgaria	Guatemala	Marshall Islands	Republic of Korea	Tuvalu
Burkina Faso	Guinea	Mauritania	Republic of Moldova	Uganda
Burundi	Guinea-Bissau	Mauritius	Romania	Ukraine
Cabo Verde	Haiti	Mexico	Russian Federation	Uruguay
Cambodia	Honduras	Micronesia (Federated States of)	Rwanda	Uzbekistan
Cameroon	India	Mongolia	St. Vincent & The Grenadines	Vanuatu
Cape Verde	Indonesia	Morocco	Sao Tome & Principe	Venezuela (Bolivarian Republic of)
Central African Republic	Iran (Islamic Republic of)	Mozambique	Senegal	Viet Nam
Chad		Myanmar	Serbia	Yemen

Colombia			Sierra Leone	Zimbabwe
Comoros			Singapore	
Congo				

Moderate to High Incidence Countries with TB incidence rates of ≥ 20 cases per 100,000 population in 2012. Source: World Health Organization Global Health Observatory, Tuberculosis Incidence 2012

If you answered **YES** to one or more of the above questions, The Saint Vincent Seminary requires that a physician, nurse practitioner, or physician assistant complete Physician's Evaluation for Tuberculosis (Page 3)

If you answered **NO** to ALL the above questions, SKIP PAGE 3 and PROCEED TO PAGE 4.

PHYSICIAN'S EVALUATION FOR TUBERCULOSIS

Name: _____ Birth date: _____/_____/_____
Last First M D Y

- 1. Has the student had a TB TEST in the past? [] Yes [] No [] Unknown
2. Has the student had a POSITIVE TB test in the past? [] Yes [] No

If YES, what test was positive: [] Interferon-Gamma Release Assay (IGRA) [] TB skin test - Result in mm: _____

Date of Positive Test: _____/_____/_____
M D Y

Chest X-Ray Date: _____/_____/_____ (Copy of Radiologist's report in ENGLISH must be attached.) Result: Normal [] Abnormal []

Diagnosis: ACTIVE Tuberculosis [] Yes [] No LATENT Tuberculosis [] Yes [] No

Treatment: _____ Completed successfully on _____/_____/_____
M D Y

3. TB SYMPTOM CHECK

Does the student have signs or symptoms of active pulmonary tuberculosis disease?

No [] Proceed to #4

Yes [] Check symptoms present & proceed with additional evaluation to exclude active tuberculosis disease including tuberculin testing, chest x-ray, and sputum evaluation as indicated.

- [] Cough (especially if lasting 3 weeks or longer) with or without sputum production
[] Coughing up blood (hemoptysis)
[] Chest pain
[] Loss of appetite
[] Unexplained weight loss
[] Night sweats
[] Fever

4. TB TEST - If no history of a Positive TB test, perform one of the following tests within 6 months before start of classes:

- TB Skin Test: _____/_____/_____ TB Skin Test read: _____/_____/_____ Result in mm: _____ Neg [] Pos []
• Interferon Gamma Release Assay (IGRA): _____/_____/_____ Neg [] Pos [] Copy of laboratory report must be attached.

5. CHEST X-RAY if TB test noted above is POSITIVE. Copy of Radiologist's report in ENGLISH must be attached.

Date: _____/_____/_____ Interpretation: Normal [] Abnormal []

Diagnosis: ACTIVE Tuberculosis [] Yes [] No LATENT Tuberculosis [] Yes [] No Other: _____

Pennsylvania State Law and Meningitis and Meningococcal Disease

The Pennsylvania College and University Student Vaccination Act, signed into law in June 2002, requires students living in campus housing in the state of Pennsylvania to be immunized against meningococcal disease or to sign a waiver that they have received detailed information on the risks associated with meningococcal disease and the availability and the effectiveness of vaccine and that they choose not to be vaccinated.

In accordance with this act Saint Vincent College and Seminary have implemented the following requirements. These requirements apply to all students living on campus, including students enrolled in campus-based residential summer programs. All students who will be living in campus housing and who are age 21 or younger ***must submit proof of 1 dose of meningococcal conjugate vaccine that covers serogroups A, C, Y, and W-135 since age 16.*** Students are exempt from this requirement only if there is a medical contraindication to vaccination or if religious beliefs prohibit immunization. Requests for exemption must be accompanied by a signed waiver.

Students living on campus who are over age 21 may either submit proof of vaccination since age 16 or submit the Meningococcal Immunization Waiver in accordance with the College and University Student Vaccination Act. Due to the short time frame of summer-only residential programs, students enrolled in these programs must be in compliance prior to arrival on campus.

Those students who are not in compliance after arrival may obtain this immunization through the College Health Center or the Monastery Infirmary (for Monastery residents) at the student's expense.

Incoming students may request a medical or religious exemption. Requests must include a signed statement from an allopathic or osteopathic physician indicating why this vaccine is medically contraindicated. Requests for religious exemption must include a detailed written statement of personal religious beliefs or a letter from clergy. All requests must include a signed Meningococcal Immunization Waiver (see below).

Additional information about meningococcal disease and vaccine is available at:

- the American College Health Association (www.acha.org),
- Centers for Disease Control and Prevention (CDC) at <http://www.cdc.gov/meningococcal/index.html>
- Vaccine Information Statement at <http://www.cdc.gov/vaccines/hcp/vis/vis-statements/mening.html>

SAINT VINCENT SEMINARY AND ARCHABBEY

INFORMATION ABOUT MENINGOCOCCAL DISEASE AND WAIVER FORM

Meningococcal disease is a rare but potentially fatal bacterial infection, expressed as either meningitis (infection of the membranes surrounding the brain and spinal cord) or meningococemia (bacteria in the blood). Meningococcal disease strikes about 3,000 Americans each year and is responsible for about 300 deaths annually.

Approximately 100 to 125 cases of meningococcal disease occur annually on college campuses and five to 15 students die as a result. Serotypes C, Y and W-125 cause a majority of cases in college students (65 percent). Research has shown that students residing in dormitories appear to be at higher risk for meningococcal disease than college students overall. Further research shows freshmen living in dormitories have a six times higher risk of meningococcal disease than college students overall.

Meningococcal vaccine provides protection against the most common strains of the disease, including serogroups A, C, Y and W-135. ***The duration of protection is approximately three to five years.*** The vaccine is very safe and adverse reactions are mild and infrequent, consisting primarily of redness and pain at the site of injection lasting up to two days.

The Advisory Committee on Immunization Practices (ACIP) of the U.S. Centers for Disease Control and Prevention (CDC) recommends that college freshmen (particularly those who live in dormitories or residence halls) be informed about meningococcal disease and the benefits of vaccination, and that students who wish to reduce their risk for meningococcal disease be immunized. Other undergraduate students who wish to reduce their risk for meningococcal disease may also choose to be vaccinated.

Under the terms of the College and University Student Vaccination Act of the state of Pennsylvania, students living in campus housing must be immunized against meningococcal disease or sign a waiver that they have received detailed information on the risks associated with meningococcal disease and the availability and the effectiveness of vaccine and that they choose not to be vaccinated.

All students who will be living in campus housing or the monastery and who are age 21 or younger must submit proof of 1 dose of meningococcal conjugate vaccine that covers serogroups A, C, Y, and W-135 since age 16. Incoming students living on campus who are over age 21 may either submit proof of vaccination since age 16 or submit the Meningococcal Immunization Waiver in accordance with the College and University Student Vaccination Act.

WAIVER

*I have read the above information about the risks of meningococcal disease and the benefits of immunization. I hereby attest that I am declining immunization at this time. ***Incoming students may waive this requirement only if there is a medical contraindication to vaccination or if religious beliefs prohibit immunization.****
